### TRANSACTION OVERVIEW

#### 6. Proposal and Project Strengths

- The Project has received an award of 4% federal and state tax credits award which is projected to generate equity representing 47% of total financing sources.
- The Developer/Sponsor and property management company have extensive experience in developing similar affordable housing projects and have experience with CalHFA.
- The Project will serve families and seniors with incomes ranging between 30% to 80% of AMI.
- The Loan-to-Value is 70%, which meets the Agency's minimum requirements and the first mortgage and MIP loan together is 77% LTV, which provides less risk to the Agency.
- The projected portion of the Developer's fee that will be collected at or prior to permanent loan conversion is \$5,399,999 which could be available to cover cost overruns and/or unforeseen issues during construction.
- The exit analysis assumes 6.75% cap rate and 3% increase of the underwriting interest rate at loan maturity. Based on these assumptions, the Project will have the ability to fully repay the balance of the 1<sup>st</sup> lien permanent loan and CalHFA MIP loan.
- Project rents are between 34% to 86% of market and 80% of the units will be affordable to families and seniors earning 60% or less of AMI.
- Vacancy rates in the Primary Market Area is 3.8% for market rate properties and 1.2% with waiting lists for some of the comparable affordable properties in the area.
- Services to be provided by a full-time LifeSTEPS social services coordinator and will include an on-site after-school program for children, adult education, computer literacy, personal finance and ESL classes and social activities. The annual cost of these services is \$50,400 and is paid through the operating budget.

A waiver to exceed the haximum is recommended because this is a large project. In addition, the project will serve a broad range of families and eniors in an area experiencing high demand for affordable housing.<br>he April 2019 MIP term sheet requires that projects being considered pursuant to MIP 2019 NOFA shall receive CDLAC nd TCAC allocations by December 2019. The CalHFA Board approved a waiver to this requirement to allow the project of apply during the November 2019 application period for 2020 allocations from CDLAC and TCAC.<br>he MIP term sheet requires repayment of the MIP loan to be 50% of net cash flow and 50% to the Developer, which <i>v</i> ould result in \$5,551,976 in deferred developer fee not being repaid within the required 15-year repayment period. he term sheet also allows for deferral of repayment for up to 15 years. Therefore, the Developer has requested to defer epayment of the MIP loan until the developer fee is repaid or 15 years, which is anticipated to occur in year 13. After he developer fee is repaid, the net cash flow split will be 50% to the Developer and 50% to the MIP loan repayment. The nalysis shows the MIP loan will be fully repaid upon refinance of the project in year 15.   |

For instance, if the permanent loan interest rate decreased, then the subsidy may be reduced due to additional debt generated by the lower interest rate. An increase of the CalHFA MIP loan will not be allowed and will be subject to Agency's approval.</li> </ul> |

# MIXED-INCOME LOAN PROGRAM

The CalHFA Mixed-Income Program ("MIP") provides competitive long-term financing for newly constructed multifamily housing projects restricting units (tax credit or CalHFA) between 30% and 120% of county Area Median Income ("AMI").

The MIP must be paired with CalHFA's Conduit Bond Issuance Program and a CalHFA Mixed-Income Preferred Construction Lender. Additionally, the program must be paired with CalHFA's Permanent Loan product or a sponsor must work with a CalHFA Mixed-Income Preferred Permanent Lender. The Mixed-Income resources will take the form of a subordinate loan to incentivize newly developed multifamily housing projects that serve a range of very low to moderate income California renters. Eligible projects must create newly constructed regulated units that meet the income and occupancy requirements reflected below.

| Qualifications  | <ul> <li>Available to for-profit, non-profit, and public agency sponsors. Development teams must meet CalHFA experience requirements.</li> <li>Subsidy resources must be used in conjunction with CalHFA's Conduit Bond Issuance Program and a construction loan from a CalHFA Mixed-Income Preferred Construction Lender.</li> <li>Subsidy resources must also be used in conjunction with CalHFA's permanent first-lien mortgage financing or financing from a CalHFA Mixed-Income Preferred Permanent Lender.</li> <li>Financing Structure: 1) Tax-exempt Bond and 4% tax credit projects where at least 51% of the units in each project must be tax credit financed or 2) Qualify as a mixed-income project under the California Debt Limit Allocation Committee's (CDLAC) regulations (50% or fewer units designated as tax credit or tax-exempt bond restricted) and use an allocation of private activity bonds to finance the project.</li> <li>Projects must have site control and be prepared to submit to CDLAC and TCAC by no later than the December 2019 CDLAC Allocation meeting and will only receive funds if bonds are issued within the issuance timeframes outlined in the CDLAC resolution.</li> </ul> |
