be reserved for onsite property managers. The site is to be 5.87 acres and is currently improved with a non-residential retail shopping center in average condition that will be razed during site preparation. The Project is not in a governor declared disaster area.

Financing Structure: The Project's financing structure includes tax-exempt bonds, taxable bonds, subordinate Series B (Bonneville) via recycled tax-exempt bonds, 4% federal tax credits, state tax credits, Agency's tax-exempt loan program with HUD Risk Share, and mixed-income loan program. The project will be income averaged, pursuant to TCAC regulations.

Tax Credits and/or CDLAC Status: The developer received an allocation of 4% federal tax credits, state tax credits, and bond cap on December 8, 2021.

Ground Lease: Not applicable.

Project Amenities: The Project includes a leasing office, community room, fitness room, and central laundry rooms. There will be a total of 611 parking spaces reserved for tenants, guests, and staff. 550 of the parking spaces will be located under the podium and the remaining 61 parking spaces will be surface parking. The site will also be improved with a picnic area and playground. Unit amenities will include central heating, central air, dishwasher, and garbage disposal.

Local Resources and Services: The Project is located in a Moderate Resource Area per TCAC/HCD's Opportunity Area Map. The Project is in close proximity to the following local amenities and services:

- Schools 0.57 miles
- Public Library 0.6 miles
- Public transit 0.07 miles
- Retail 0.05 miles
- Park and recreation 0.5 miles
- Hospitals 2.06 miles

Non-displacement <u>and</u> **No Net Loss:** To the extent feasible, it is the Agency's priority to mitigate the overall effects upon affordable housing availability that may arise from multifamily developments that may result in permanent displacement of existing affordable housing residents and/or net loss of existing affordable housing units. The Project is a new construction project, with no related demolition of existing affordable housing, hence no existing affordable housing units will be lost nor will existing residential households be displaced as a result of the Project.

Commercial Space: There will be no commercial Space at the property.

schedule as well as utilizing the GC's expertise to prepare an in-house construction estimate, select qualified subcontractors and value engineer solutions for the project. The developer has worked with the GC on ten affordable housing projects totaling over 2,000 units and is familiar with and can attest to the quality of the GC.

6. Equity – Cash Out (estimate): Not Applicable

TRANSACTION OVERVIEW

7. Proposal and Project Strengths

- The Project has received 4% federal tax credits and state tax credits from TCAC, which is projected to generate equity representing 48% of total financing sources.
- The developer/sponsor has extensive experience in developing similar affordable housing projects and has experience with CalHFA.
- The Project will serve low-income families ranging between 30% to 80% of AMI.
- The locality has invested in the success of the Project as demonstrated by non-monetary concessions towards the development of the Project as stated in the Affordable Housing Agreement. These concessions include increased building height to 55 feet, reduction of commercial component from 25% to 2.6% (commercial component is not part of this project) and reducing property line setbacks from 28ft to 25ft. The locality has also granted nine waivers in the Affordable Housing Agreement to requirements related to design and property line setback.
- The projected portion of the developer's fee that will be collected at or prior to permanent loan conversion is \$5,920,000, which could be available to cover cost overruns and/or unforeseen issues during construction.
- The exit analysis assumes 6% cap rate and 3% increase of the underwriting interest rate at loan maturity. Based on these assumptions, the Project will have the ability to fully repay the balance of Agency's permanent and subsidy loans at maturity.

8. Project Weaknesses with Mitigants:

- A subsurface ESA (Phase II) was completed in March 2021 and the results of the Phase II recommend that a soils management plan is necessary prior to construction. Cost for groundwater mitigation and possible soil remediation are included in the construction budget for the residential portion only.
- The community opposed the Project in general, despite the project being designed in accordance with the City's General Plan, Municipal Code, and State Density Bonus Law. Despite the community oppositions, the City has approved entitlements for the Project. Please see section 36 for further detail.

9. Underwriting Standards or Term Sheet Variations

- Pursuant to the CalHFA Underwriting Standards and Reference Manual, MIP loans may be recorded behind amortizing debt in second lien priority. The project will be financed by Series B (Bonneville) via tax-exempt recycled bonds which will be required to be in 2nd lien position at permanent loan closing. The developer is proposing, and Multifamily staff is recommending the MIP Deed of Trust be recorded in 3rd lien position, however, the MIP affordability restrictions will still be recorded ahead of all foreclosable debt. This variation is necessary to facilitate the proposed financing structure and project feasibility.
- The Project's operating expenses are 7% below TCAC minimums. The developer has submitted operating budgets of
 three comparable properties substantiating the operating expenses. The investor has issued a letter of interest that
 supports the reduction of the operating expenses. TCAC approval of the operating expense minimums has been
 received as evidenced by a TCAC Reservation Letter dated December 8, 2021. Approvals of the final proposed
 operating expenses from the investor and all lenders are required.

10. Project Specific Conditions of Approval

Approval is conditioned upon

• No further site work or construction commenced prior to the issuance of a HUD Risk Share Firm Approval Letter.

- Subject to CalHFA, construction lender(s), other lenders, and equity investor approvals of the final mitigation action plans and budget outlined in the soils' management plan dated March 12, 2021 prior to construction loan closing. In addition, the final mitigation action plans must be implemented and completed on the residential portion prior to permanent loan closing.
- The Project's proposed operating expenses do not meet TCAC minimums, therefore, Borrower must provide evidence that the proposed operating expenses are sufficient to operate the project via an appraisal report and/or other supporting documentation acceptable to CalHFA. In addition, approvals of the final proposed operating expenses from the investor and all lenders are required.
- CalHFA requires that MIP affordability covenants be recorded in senior position of all foreclosable debt.
- The CalHFA subsidy will be, in the Agency's sole discretion, the lesser of 1) the principal amount as stated herein, or 2) an amount as determined by the Agency in the event the financial assumptions change prior to construction loan closing and/or permanent loan closing. For instance, if the permanent loan interest rate decreased, then the subsidy may be reduced due to additional debt generated by the lower interest rate. The debt service coverage ratio ("DSCR") shall be a maximum of 1.20. An increase of the subsidy loan will not be allowed and will be subject to Agency's approval.
- Receipt of Lien Priority/Position Estoppel in form and substance acceptable to CalHFA, City of Simi Valley, and
 Bonneville Multifamily Capital Subordinate B Bonds.

 The City is requiring the Borrower to encumber the Property by recording an Affordable Housing Agreement that
 includes density bonus requirements. Prior to construction loan closing and closing of the CalHFA loans, the
 Affordable Housing Agreement is subject to CalHFA review and approval in accordance with Agency underwriting
 standards, which may require a Standstill Agreement to be entered into with the City.
- Confirmation from construction lender of Loan-To-Cost in excess of 80% and loan-to-investment value in excess of 90%, if applicable.
- Recordation of parcel map to merge parcels and subdivide commercial portion of the site to be completed prior to
 or at construction loan closing.
- Subject to CalHFA's review and approval of Phase I update including CalHFA reliance dated within 180 days prior to construction loan closing.
- The Borrower has requested that 100% of surplus cash be allowed towards the repayment of the deferred developer's fee (DDF) for up to 15 years or until DDF has been fully repaid, whichever is sooner. Thereafter, the surplus cash split shall be 50% to Borrower and 50% to Residual Receipt lender(s). As a condition of this approval, the Borrower must provide evidence that the DDF repayment structure is required pursuant to the Limited Partnership Agreement (LPA). In addition, the owner must provide evidence of investor and all residual receipt lender(s) approvals of the total deferred developer's fee structure and residual receipt split. Residual receipt lenders must also agree to defer the payments on their loans.

11. Staff Conclusion/Recommendation:

The Multifamily Lending Division supports approval of the described financing in the amount(s) requested, subject to the above proposed terms and conditions.

AFFORDABILITY

12. CalHFA Affordability & Occupancy Restrictions

The CalHFA Permanent Financing Regulatory Agreement will restrict a minimum of 30% of the total units (82 units) at or below 60% AMI and 10% of the total units (28 units) at 50% of AMI for 55 year(s).

The CalHFA MIP Subsidy Regulatory Agreement will restrict 10% of the total units (28 units) at or below 50% of AMI and 10% of total units (28 units) between 60% and 80% of AMI with a minimum average of 70% of AMI, not to exceed 80% of AMI, and 79% of the total units (214 units) at or below 120% of AMI for a term of 55 years. Typically, the proposed rents are required to be sized based on the maximum target occupancy levels, unless lower rents are supported by market study or appraisal report. In addition, TCAC regulations, Section 10325 (9)(f)(1)(B)(i) requires that the proposed tenant paid rents for each affordable unit

type in the proposed development must be at least ten percent (10%) below the weighted average rent for the same unit types in comparable market rate rental properties. For the 80% of AMI occupancy target level, per the appraisal report dated 2/7/2022, the Project can only support rents based on approximately 72% of AMI and still comply with the TCAC requirements that rents be 10% below the weighted average market rents. Therefore, while the target occupancy is 80% of AMI, the rents are based on 72% of AMI. For underwriting purposes, the initial rents at permanent loan closing must be no less than the underwriting rent levels outlined on the "Unit Mix and Rent Summary" enclosed.

In addition, the Project will be restricted by the following jurisdictions as described below:

• The City of Simi Valley Affordable Housing Agreement and Density Bonus Agreement will restrict 27 units at or below 30% AMI, 27 units at or below 50% AMI, 162 units at or below 60% AMI, and 52 units at or below 80% AMI (268 units total) for a period of 55 years from the issuance of a Certificate of Occupancy.

APPRAISAL AND MARKET ANALYSIS

| The Appraisal prepared by Pacific Real Estate Appraisal, values the land at \$6,300,000. The cap rate of 4% and projected \$2,715,566 of net operating income, which is approximately 10.8% lower than developer's current projections. Subsequent to ordering the appraisal, the developer was able to increase the rents on the 60% and 80% AMI units which accounts for an additional \$400k in rental income. The proposed operating expenses per unit in the appraisal is \$6,082 which is approximately 12% higher than developer's proposed operating expenses per unit. The operating expenses per unit in the appraisal is based on market rate comparable projects, hence it is expected to be higher than the operating expenses per unit for an affordable project. The appraisal is therefore using a more conservative NOI to determine the appraised value. The as-restricted stabilized value is \$67,890,000, which results in the Agency's permanent first lien loan to value of 72%. The capture rate is 28% and the absorption period is 10 months, which is generally consistent with the market study. | 18. | Appraisal Review | Dated: 3/2/22 |

PWC has partnered with Central Valley Coalition for Affordable Housing (CVCAH) on over 70 projects. CVCAH is a nonprofit public benefit corporation and is included in the Project ownership as the Managing General Partner for the sole purpose of providing tax-exempt status to the project in order to obtain an allocation of tax-exempt bonds and property tax exemption.

36. Local Review via Locality Contribution Letter

The locality, City of Simi Valley, returned the local contribution letter stating they have "no position" with regards to the support of the project. The City commented, "This project garnered considerable opposition in the community and was approved by the City under threat of litigation by the California Department of Housing and Community Development (HCD). Absent California laws that mandate the City's approval and the threat of litigation from HCD, the City would have had the opportunity to work cooperatively with the original developer to design a project that could be supported by the community."

The community opposed the project citing tall building height, traffic congestion, and increased risk of spreading COVID due to the large number of units. However, the project was designed in accordance with the City's General Plan, Municipal Code, and State Density Bonus Law. The developer has agreed to reducing the height from 4-story over podium to 3-story over podium and including traffic flow improvements such as an additional driveway signal lights.

HCD threatened litigation against the City of Simi Valley for not complying with the Housing Accountability Act unless the City agreed to approve entitlements for the project. The City has since approved the entitlements and the statute of limitations has expired, therefore HCD litigation is no longer a concern.

While there has been no specific community outreach, the developer has been working closely with the Home-Owner Associations to the immediate north and east of the project to coordinate construction and landscape designs.

The California Housing Finance Agency ("CalHFA" or "Agency") Mixed-Income Program ("MIP") provides competitive, long-term, subordinate financing for new construction multifamily housing projects restricting units (tax credit or CalHFA) between 30% and 120% of county Area Median Income ("AMI").

The MIP must be paired with CalHFA's Conduit Bond Issuance Program and a CalHFA Mixed-Income Qualified Construction Lender (defined below). Additionally, the program must be paired with CalHFA's Permanent Loan product. The MIP resources will take the form of a subordinate loan to incentivize newly developed multifamily housing projects that serve a range of extremely low to moderate income renters. Eligible projects must create newly constructed regulated units that meet the income and occupancy requirements reflected below.

Qualifications

APPLICATION:

Sponsors/developers must submit a complete application package which includes all items listed on the application, the application addendum and the checklist. Incomplete application packages will not be considered. The application and checklist can be found at www.calhfa.ca.gov/multifamily/mixedincome/. If the sponsor/developer is not able to meet the readiness timeline referenced below, MIP funds may be rescinded and reallocated. If the sponsor/developer is not able to meet the readiness timeline referenced below, MIP funds may be rescinded and reallocated.

AVAILABILITY:

Available to for-profit, nonprofit, and public agency sponsors. Development teams must meet CalHFA experience requirements, as defined in the CalHFA Development Team Qualifications section below.

USES:

MIP Subsidy loans must be used in conjunction with CalHFA's Conduit Bond Issuance Program and a construction loan from a CalHFA Mixed-Income Qualified Construction Lender.
