TRANSACTION OVERVIEW

6.	Proposal and Project Strengths
•	The tax credit award will generate equity representing 49% of total financing sources.
•	The Pacific Companies and Aperto Property Management have extensive experience in developing and managing similar affordable housing projects and have experience with CalHFA.
•	The Project will serve low-income families ranging between 50% to 70% of AMI.
•	There is a high demand for affordable housing in the Santa Rosa area. All affordable projects are 100% occupied, with waiting list of potential tenants and market rate properties have an average vacancy rate of 4.5%. The Project is anticipated to be fully leased within 2 months of completion.
•	On-site supportive services will be available to all tenants and will include adult educational, health, wellness, computer and financial literacy classes. The cost for these services is estimated to be \$16,000 and is included in the operating budget.
•	The Loan-to-Value is 80% which meets the Agency's minimum requirements and provides less risk to the Agency. The projected portion of the developer's fee that will be collected at or prior to permanent loan conversion is \$2,500,000, which could be available to cover cost overruns and/or unforeseen issues during construction.

7.	Project Weaknesses with Mitigants:
B n o te SI	The exit analysis assumes an increase of 2% for the cap rate and 3% for the underwriting interest rate at loan maturity. The exit analysis assumptions, the Project will have the ability to fully repay the balance of Agency's permanent loan but hay only be able to repay a portion of the Agency's subsidy MIP loan in the estimated amount of \$2,231,015 leaving an outstanding balance of \$2,957,370. This is as expected by CalHFA given the requirement that the MIP loan be co- erminus with the permanent first mortgage. The primary source of repayment for both the first mortgage and the MIP ubsidy loan is refinance of the project first mortgage. To the extent such a refinance is insufficient to fully repay the AIP loan, it is contemplated that any remaining balance will be paid from a general partner contribution as part of the inal close out of partnership obligations to allow re-syndication.
8.	Underwriting Standards or Term Sheet Variations
N re ld p 1 1 1 t c r c	he MIP term sheet requires repayment of the MIP loan to be a pro rata share of 50% of residual receipts between the AIP and other subordinate residual receipts lenders. The Developer has requested, and the Multifamily Lending Division ecommends, 75% of net cash flow paid towards deferred developer fee and 25% of net cash flow paid towards the MIP ban until the deferred developer fee is paid off, which is estimated to be in year 13. Once the deferred developer fee is haid off, net cash flow distribution will be split 50% to the Developer and 50% to the MIP loan. The affordability restrictions for the Mixed Income Program require at least 10% of the units be restricted to 81% to L20% of AMI, with an average of 100% of AMI, if supported by a market study. However, per a market study dated L2/5/19, the Project can only support rents at a maximum of 70% AMI and still comply with the requirement that rents be at 10% below market. Therefore, this project will comply with affordability requirement of 60% to 80% of AMI with an average of 70% AMI. The USRM requirement for operating reserves is for 6 months' operating expenses, debt service, and annual replacement reserve deposits. Recommendation is made to reduce the operating expense reserve to 3 months, based on the fact that the developer has considerable experience developing tax credit projects, several of which are in the CalHFA pipeline.
9.	Project Specific Conditions of Approval
	 roval is conditioned upon: Receipt of a certification by the engineer on record that Project has been built to current seismic code acceptable to the Agency prior to permanent closing. The Project must meet the readiness requirements within 180 days from TCAC/CDLAC allocation. CalHFA will require the developer to provide a cost containment certification that is acceptable to the Agency. The MIP affordability covenants will be recorded in first position.
10.	Staff Conclusion/Recommendation:
	Multifamily Lending Division supports approval of the described financing in the amounts requested, subject to the re proposed terms and conditions.

MISSION & AFFORDABILITY

11. CalHFA Mission/Goals

This Project and financing proposal provide 95 units of affordable housing with a range of restricted rents between 50% AMI to 70% of AMI which will support much needed rental housing that will remain affordable for 55 years.

12. CalHFA Affordability & Occupancy Restrictions

The CalHFA Bond Regulatory Agreement will restrict a minimum of 40% of the units at or below 60% AMI and 10% of the total units at 50% of AMI for 55 year(s).

The CalHFA MIP Subsidy Regulatory Agreement will restrict 10% of the units at or below 50% AMI and 10% of the units at

70% AMI. The remaiı	ning units w	ill be restric	cted at or be	elow 120% o	of AMI.

APPRAISAL AND MARKET ANALYSIS

18.	Appraisal Review								
 An appraisal report as of March 13, 2020 by Watts, Cohen & Partners gives a value of \$18,050,000, resulting loan to value ratio of 80%. The value assumes the project as restricted, at stabilized occupancy, with a propertax exemption. The appraised value is based on an income cap rate of 5%, based on recent sales data on comparable affordat housing projects in the market area. The average vacancy for affordable properties is 98% to 100%, with waiting lists for some projects. The appraisal found the values to be stable and rents are anticipated to increase at an annual rate of 3%. The project's rents are 46% to 85% of market rents.

For Section 8 Projects, a final commitment is conditioned upon review and acceptance by CalHFA of the HAP or AHAP contract. The Perm Loan will be credit-enhanced through CalHFA's HUD/FHA Risk Sharing Program. For existing CalHFA portfolio loans, the current owner is required to pay off all outstanding CalHFA debt. Visit www.calhfa.ca.gov for the CalHFA Portfolio Loan Prepayment Policy.
Loan Amount	 Minimum Perm Loan amount of \$5,000,000. Minimum 1.15x for debt service coverage ratio (include any financing with amortizing debt). Lesser of 90% of restricted value or 100% of development costs. For Projects with equity being cashed out, the Perm Loan amount will be restricted to no more than 80% of the restricted value.
Fees (subject to change)	 Application Fee: \$10,000 non-refundable, due at time of application submittal, and is credited toward the CalHFA Loan Fee. Perm Loan Fee: 1.00%, half due at final commitment, with balance due at Perm Loan closing. Cost of Issuance Fee: \$110,000, half due at final commitment, with balance due at Perm Loan Closing. Credit Enhancement Fee: included in the interest rate. Annual Administrative Fee:: \$7,500 annually (not to be duplicated if used in conjunction with CalHFA's Conduit Program). Inspection fees should be estimated at \$500 - \$1,000 per month (reports and fees can be shared with other construction lenders) Legal Fee: \$35,000 due at Perm Loan closing. Administrative Fee: \$1,000 at Perm Loan closing. Letter of Interest Fee: \$5,000 at LOI request, and is credited towards the CalHFA Perm Loan Fee

The CalHFA Mixed-Income Program ("MIP") provides competitive long-term subordinate financing for new construction multifamily housing projects restricting units (tax credit or CalHFA) between 30% and 120% of county Area Median Income ("AMI").

The MIP must be paired with CalHFA's Conduit Bond Issuance Program and a CalHFA Mixed-Income Qualified Construction Lender (defined below). Additionally, the program must be paired with CalHFA's Permanent Loan product or a sponsor must work with a CalHFA Mixed-Income Qualified Permanent Lender (defined below). The Mixed-Income resources will take the form of a subordinate loan to incentivize newly developed multifamily housing projects that serve a range of very low to moderate income renters. Eligible projects must create newly constructed regulated units that meet the income and occupancy requirements reflected below.

Projects located within the Highest or High Resource areas designated on the TCAC/HCD Opportunity Area Map shall be eligible for an additional 5% of the project eligible basis per 4% federal and state tax credit program. Opportunity Map Home Page Loan size based on project need but cannot be more than 50% of the permanent loan amount.
Mixed-Income Subordinate Loan Rates & Terms	 Interest Rate: 2.75% simple interest. Loan Term: The MIP loan term shall be coterminous with the permanent first lien loan. Loan Payment: Residual receipt repayment based on cash flow analysis and split 50% to Owner and 50% to CalHFA and other residual receipt lenders. Residual receipt is defined as 50% of surplus cash which is determined as net operating income minus total debt service and other Agency approved payments. The CalHFA Mixed-Income Program ("MIP") provides competitive long-term subordinate financing for new construction multifamily housing projects restricting units (tax credit or CalHFA) between 30% and 120% of county Area Median Income ("AMI").

The MIP must be paired with CalHFA's Conduit Bond Issuance Program and a CalHFA Mixed-Income Qualified Construction Lender (defined below). Additionally, the program must be paired with CalHFA's Permanent Loan product or a sponsor must work with a CalHFA Mixed-Income Qualified Permanent Lender (defined below). The Mixed-Income resources will take the form of a subordinate loan to incentivize newly developed multifamily housing projects that serve a range of very low to moderate income renters. Eligible projects must create newly constructed regulated units that meet the income and occupancy requirements reflected below.

Qualifications

Incomplete application packages will not be considered. The application and checklist can be found at www.calhfa.ca.gov/multifamily/mixedincome/forms/index.htm.
