**PROJECT SUMMARY**

2.	<b>Legislative Districts</b>	<b>Congress:</b>	#28 Adam Schiff	<b>Assembly:</b>	#43 Laura Friedman	<b>State Senate:</b>	#25 Anthony J. Portantino
	<b>Brief Project Description</b>	<p><b>515 Pioneer Drive</b> (the “Project”) is a new construction, multi-family/senior mixed income Project. It consists of three elevator-served, 5-story midrise structures. There will be 340 total units, 337 of which will be restricted between 30% and 80% of the Los Angeles County Area Median Income (AMI). There will be 32 studios (360 s.f.), 260 one-bedroom units (530 s.f.), and 48 two-bedroom units (750 s.f.). Three two-bedroom units will serve as the manager’s units. There is an existing single-story vacant office structure in average condition that will be razed prior to construction.</p> <p>Ninety-two (92) units will be restricted to senior households ages 62 and older and 245 units will be restricted to the general population. Refer to the below chart for the unit breakdown senior and general population:</p>					

Population Type	Studio Units	1-Bdrm Units	2-Bdrm Units	Total Units
Senior:	32	60	0	92
General:	0	200	45	245
On-site Manager:			3	3
Total:				340

**Financing Structure:** The Project’s financing structure includes financing from tax-exempt bonds, 4% Federal Tax Credit equity (4% Federal LIHTC allocation), State Housing Tax Credit equity, Agency’s tax-exempt loan program, Mixed-Income Program (original and supplemental) and a loan from the Glendale Housing Authority. The project will be income averaged, pursuant to TCAC regulations.

**Tax Credits and/or CDLAC Status:** The developer received an allocation for 4% tax credits and bond cap from CDLAC on 06/15/2022. The Project will be applying in September for a supplemental bond allocation, which is expected to be awarded in 2022. The supplemental allocation is being requested to add a cushion to the project’s 50% aggregate basis requirement (the “50% test”) which is currently at approximately 48%. The supplemental allocation will increase this to approximately 52%, which is necessary to accommodate a potential cost increase during construction.

**Ground Lease:** The owner will enter into a ground lease agreement with the City of Glendale Housing Authority (“City”) for a term of 55 years for an amount of \$12,400,000. The capitalized ground lease payment of \$12,400,00 will be funded by the City’s Land loan of the same amount at construction loan closing. The City’s loan will be for a term of 55 years with an initial annual payment of \$1 at construction loan closing and thereafter for an annual operating expense amount of \$1 as well as residual receipts with 3% simple interest per annum. The city has agreed to defer the residual receipt payments to the City’s Land loan until the Deferred Developer Fee (DDF) has been fully repaid.

**Project Amenities:** The Project includes a courtyard, an outdoor roof terrace, a computer lab, community room, recreational room, security cameras + controlled access, and a central laundry facility in each building. Unit amenities will include air conditioning, electric heating, patio/balconies, dishwasher, microwave, and garbage disposal.

**Local Resources and Services:** For TCAC/CDLAC purposes, the Project is located within a Moderate Resource area per TCAC/HCD’s Opportunity Area Map. The Project is in close proximity to the following local amenities and services:

- Grocery stores – 0.8 mile
- Schools - 0.2 mile
- Public Library – 0.8 mile
- Public transit – 0.1 mile
- Retail - 0.1 mile
- Park and recreation - 0.2 mile
- Hospitals – 1.9 miles
- Senior center – 4.7 miles

**Non-displacement and No Net Loss:** To the extent feasible, it is the Agency’s priority to mitigate the overall effects upon affordable housing availability that may arise from multifamily developments that may result in permanent displacement of existing affordable housing residents and/or net loss of existing affordable housing units. The Project is a new

	<p>construction project, with no related demolition of existing affordable housing, hence no existing affordable housing units will be lost nor will existing residential households be displaced as a result of this development.</p> <p><b>Commercial and/or Other (i.e. Parking) Space:</b> The Project does not include commercial space.</p>
--	---

**MISSION**

<b>3.</b>	<b>CalHFA Mission/Goals</b>	
<p>This Project and financing proposal provide 337 units of affordable housing with a range of restricted rents between 30% of AMI and 80% of AMI, which will support much needed rental housing that will remain affordable for 55 years.</p>

**\*Gap Funding Explanation and request for supplemental MIP subsidy loan funding:** The Sources of Funds chart shown above includes information related to each financing and/or equity sources and uses during the construction and permanent periods of development.

At the time of initial commitment (March of 2022), the developer for this project estimated total development cost (TDC) of \$149,480,811 (\$439,649/unit) which was lower than the current budget amounts reflected above. CalHFA issued an initial commitment based on these initial costs estimates for the developer to use to apply to CDLAC for tax exempt bond cap and to CTCAC for both federal and state tax credits. On June 15, 2022 the Borrower received the related allocations from CDLAC and CTCAC.

The chart below summarizes the changes in sources and uses between initial commitment (in March) vs. current proposed. On the sources side, the changes were predominantly due to 1) increase in investor equity contribution of \$7,836,645 for an estimated total equity contribution amount of \$85,181,244, 2) increase in deferred developer's fee of \$2,339,964, and 3) increase in the Glendale Housing Authority Development Loan of \$6,000,000. On the uses side, cost increases were related to: 1) increase to construction hard costs of approximately \$8,343,206 ; 2) increases to interest rates from the Construction Lender resulting in a \$3,766,116 increase to costs related to construction period debt service and loan fees; 3) market related increases driving CalHFA's higher interest rate and spreads which resulted in a \$5,106,242 reduction to the permanent loan amount.

The Borrower has requested a \$5,203,625 increase to the MIP Subsidy Loan in an effort to offset cost increases and loan reductions outlined above and below. The summary of changes in sources and uses between initial commitment vs. current proposed are outlined below:

Summary of changes in Sources/Uses since the Initial Commitment approval

Hard Cost/Soft Cost changes: In an effort to mitigate market disruptions, the Borrower met with their design team and general contractor to evaluate the original construction hard cost budget. As a result, they were able to reduce construction off-site work costs by approximately \$858,751. As reflected on the above chart, the Project has seen a substantial increase in hard and soft costs, which include an increased estimate of a post construction loan interest reserves due between construction and permanent conversion.

Deferred Developer Fee: The current budget also reflects an increase of the total developer’s fee by \$2,138,486, however, the current deferred developer’s fee (DDF) is approximately \$2,339,964 higher and the developer equity contribution \$201,477 lower than the original budget, which results in a net increase of DDF and developer equity contribution by \$2,138,486 (original developer fee \$17,104,437 with \$4,725,095 deferred, compared to current developer fee \$19,242,923 with \$7,065,059 deferred).

Perm Loan Reduction & Equity Contribution Adjustment: The equity contribution adjustment is anticipated to be approximately \$7,836,645. During final underwriting, the CalHFA permanent loan of \$34,931,674 was reduced by \$5,106,242 to \$29,825,432. This was attributed to increases in perm loan financing costs related to macroeconomic factors, such as inflation. The underwriting interest rate of 6.23% is inclusive of costs associated with the Agency offering extended rate lock period of 6+ months and interest rate hedging costs incurred by the Agency.

To mitigate the funding gap of \$6,257,246, CalHFA was able to increase the perm loan by allowing the removal of 25 bps underwriting cushion and rate locking at 6.23% fixed interest rate for the closing (per conversion at 36-month forward from construction closing). This resulted in a permanent loan increase of \$1,053,621, which reduced the overall funding gap to \$5,203,625.

The estimated funding gap after exhausting all resources available to the project totals approximately \$5,203,625. The Borrower has requested an increase to the initially committed MIP subsidy of \$5,000,000. Pursuant to the TCAC/CDLAC requirements this project must begin construction by December 2022. A \$5,203,625 (\$15,441/restricted unit) increase in the MIP supplemental subsidy results in an overall MIP loan amount of \$10,203,625 (\$30,278/restricted unit).

**Subsidy Efficiency:** Initial MIP commitment was \$5,000,000 (\$14,837 per MIP restricted units). Current proposed: \$10,203,625 (\$30,278 per MIP restricted units). This exceeds the Mixed-Income Loan Program 2022 Term Sheet per project cap of \$8,000,000. Staff is recommending an exception to the per project Allocation Limit of \$8,000,000 given that the property meets the per unit maximums. Approval of this exception is further detailed in the “Underwriting Standards or Term Sheet Variations” section 9 below.

The construction team has developed standardization of products to ensure the most cost-effective and efficient building design. They work closely with the design team to design the right systems for each building. Each project is conceived, designed, and constructed with energy efficiency in mind.</p> <p>National CORE uses a combination of well insulated walls, energy efficient windows and glazing, high performance - high efficiency ducted mini-split HVAC systems, and high efficiency water heating systems, achieving energy compliance margins that exceed California Energy Code requirements.</p> <p>Additionally, the construction team works closely with the property management and facilities team to ensure that the building will be maintained and operated with the same high-performance goals and results. The owner's goals for hitting Title 24 energy and operational energy savings goals are incorporated into every design decision, starting with conceptual design. Energy analytics are baked into the process and the design team is given choices to how best to hit the targets prioritizing cost savings and weighing operational cost impacts. There is no value engineering in this environment. This is cost-contained high-performance.</p> <p>National CORE works with its subcontractors to ensure that the building envelope is constructed in a manner that will minimize heat flow through the building envelope and to implement a standard of care known as "Quality Insulation Installation". In doing so, heat stress through the building envelope is reduced leading the heating and cooling systems in the units to work more efficiently. Tighter building envelopes with quality insulation makes it possible to use systems with smaller capacities that match the heating and cooling loads of each unit.</p>

**TRANSACTION OVERVIEW**

7.	<p><b>Proposal and Project Strengths</b></p> <ul style="list-style-type: none"> <li>• The Project has received 4% tax credits which is projected to generate equity representing 51% of total financing sources.</li> <li>• The co-developers have extensive experience in developing similar affordable housing projects and have experience with CalHFA.</li> <li>• The Project will serve low-income families AND seniors ranging between 30% to 80% of AMI. On average, the rents are between 18% to 76% below market rents based on current appraisal.</li> <li>• The Loan-to-Value will be 50%, which is well below the Agency's minimum requirements of 90%. This results in less risk to the Agency.</li> <li>• The locality has invested in the success of the Project as demonstrated by a City of Glendale Housing Authority Land Loan for \$12,400,000 and a Development Loan for \$16,000,000.</li> <li>• The projected portion of the developer's fee that will be collected at or prior to permanent loan conversion is \$7,299,899, which could be available to cover cost overruns and/or unforeseen issues during construction.</li> </ul>
----	--

	<ul style="list-style-type: none"> <li>The developer is contributing an amount of \$4,877,965 via GP contribution to the Project.</li> </ul>
<p><b>8.</b></p>	<p><b>Project Weaknesses with Mitigants:</b></p>
	<ul style="list-style-type: none"> <li>The exit analysis assumes 2% increase to the appraisal cap rate (resulting in 6.0%) and a 3% increase of the underwriting interest rate at loan maturity (resulting in 9.23%). Based on these assumptions, the Project will have the ability to fully repay the balance of the Agency’s permanent first lien loan and the full balance of the Supplemental MIP loan in the estimated amount of \$7,251,732. The project will only be able to repay a portion of the original MIP loan in the estimated amount of \$8,306,056 leaving an outstanding balance of \$893,944 (principal and accrued interest). This is expected by CalHFA given the requirement that the MIP loan be co-terminus with the permanent first mortgage. The primary source of repayment for both the first mortgage and the MIP subsidy loan is refinance of the project’s first mortgage. To the extent such a refinance is insufficient to fully repay the Supplemental MIP and original MIP loans, it is contemplated that any remaining balance will be paid from a general partner contribution as part of the final close out of partnership obligations to allow re-syndication.</li> <li>The current proposed initial construction loan term is 42 months plus one 6-month extension for a total of 48 months, which is the lender’s expected term required to complete 340 units, lease-up, and stabilize prior to permanent loan closing/conversion. The developer is planning 42 months to complete and lease-up the project. Currently, the CalHFA maximum forward rate lock period is 36 months with a two 3-month extension option (fee of 25 bps each) for a total of 42 months. Further extensions of the CalHFA forward rate lock may be available, subject to an extension fee and in CalHFA’s sole discretion. The Borrower estimated potential extension fees in the proposed budget that could be funded from soft contingency and/or deferred developer’s fee.</li> </ul>
<p><b>9.</b></p>	<p><b>Underwriting Standards or Term Sheet Variations</b></p>
	<ul style="list-style-type: none"> <li>The MIP Term Sheet requires the MIP loan to be recorded in second lien position behind the first mortgage. However, because the Glendale Housing Authority loans in aggregate (\$28.4 million) are much larger than CalHFA’s total MIP loan (\$10,203,625), the Glendale Housing Authority will require its deeds of trust be recorded superior to CalHFA’s. This is an exception to policy and is recommended by Multifamily Underwriting and Credit Staff, which is necessary to meet the eligibility of the City’s funding requirements and to facilitate the progression of this Project.</li> <li>Pursuant to the MIP loan term sheet, no project may receive more than the lesser of (i) \$8 million project cap, (ii) the aggregate MIP loan amount based on up to \$50k per MIP regulated unit for a project not located within the high/highest resource area per TCAC/HCD opportunity map, or (iii) MIP loan not to exceed 50% of the CalHFA perm loan. This project is located in a moderate resource area. Per the term sheet and project economics, the applicable allocation limit is an \$8 million project cap. However, the current proposal is to allow the Borrower to increase the MIP loan allocation by \$5,203,625 for a total of \$10,203,625 which is beyond the allocation limit of \$8 million that is applicable to the project. The Project’s per unit MIP amount is \$30,278 which is below the maximum allowable per unit cap of \$50,000. This MIP loan amount is an exception to the MIP term sheet and is recommended by Multifamily Underwriting and Credit Staff for approval to facilitate the progression of a shovel ready project without delay; the project received tax credit and bond cap allocations from TCAC/CDLAC on June 15, 2022 and is ready to proceed to construction loan closing by December 2022.</li> </ul>

<b>10.</b>	<b>Project Specific Conditions of Approval</b>
<p>Approval is conditioned upon:</p> <ul style="list-style-type: none"><li>• The CalHFA loan(s) will be secured against the leasehold interest in the land and fee interest in the improvements. All subordinate loans are to be secured in the same manner. However, if any lender encumbers both fee and leasehold interests in the land, the CalHFA loan documents will also secure in the fee and leasehold interests in the land. The final ground lease document is subject to CalHFA approval. Lessor must provide approval of CalHFA ground lease rider.</li><li>• Defaults under any loans used to capitalize payments or ongoing residual receipt payments required by the ground lease must not constitute a default under the ground lease. Likewise, defaults under the ground lease must not constitute a default under the loans.</li><li>• No site work or construction commenced prior to the issuance of a HUD Firm Approval Letter.</li><li>• CalHFA requires that MIP affordability covenants be recorded in senior position to all foreclosable debt.</li><li>• The CalHFA subsidy (including the supplemental MIP subsidy loan) will be, in the Agency's sole discretion, the lesser of 1) the principal amount as stated on hereto or 2) an amount as determined by the Agency in the event the financial assumptions change prior to construction loan closing and/or permanent loan closing.</li><li>• All MIP Loan principal and interest will due and payable at maturity. Outstanding Supplemental MIP loan funds will have first repayment priority whether the source of repayment is cash flow during the term of the loan or repayment via refinance, partner contribution, or other source at loan maturity.</li><li>• The locality is requiring the Borrower to encumber the Property by recording a Density Bonus Agreement. Prior to constructing loan closing and closing of the CalHFA loan(s), the Density Bonus Agreement is subject to CalHFA review and approval in accordance with agency underwriting standards.</li><li>• Receipt of a Lien Priority/Position Estoppel in form and substance acceptable by CalHFA from all local (city and county) lenders.</li><li>• Receipt of LPA and investor written approval evidencing that any outstanding deferred developer fee remaining in Year 15 will be treated as a developer contribution.</li><li>• The Borrower has requested that 100% of surplus cash be available for the repayment of the deferred developer's fee (DDF) until the earlier of year 15 of operations is complete or full repayment of the DDF. <b>11.</b>	<b>Staff Conclusion/Recommendation:</b>
<p>The Multifamily Lending Division supports approval of the described financing in the amount(s) requested, subject to the above proposed terms and conditions. As noted earlier, the supplemental MIP subsidy loan of \$5,203,625 was not part of the Initial Commitment approved by the SLC and Board, and hence approval is being sought for this financing through the subject Final Commitment Approval.</p>	

**AFFORDABILITY**

**12. CalHFA Affordability (Occupancy and Rent) Restrictions**

The CalHFA Permanent Financing Regulatory Agreement will restrict a minimum of 30% of the total units (102 units) at or below 60% AMI and an additional 10% of the total units (34 units) at 50% of AMI for 55 years.

\*The CalHFA MIP Subsidy Regulatory Agreement requires 10% of total units (34 units) be restricted at or below 30% of AMI, 20% of the total units (68 units) restricted at or below 50% of AMI, and 10% of total units (34 units) be restricted between 60% and 80% of AMI, with a minimum average of 70% of AMI for a term of 55 years. The rents for the 60% to 80% tranche will be determined by the minimum income limit of 70% of AMI, not to exceed 80% of AMI. The remaining 201 restricted units will be restricted at or below 120% of AMI. For underwriting purposes, the initial rents at permanent loan closing must be no less than the underwriting rent levels outlined on the "Unit Mix and Rent Summary" enclosed as part of the project's staff report package. The CalHFA permanent loan agreement will require minimum underwriting rent levels as outlined in the Rent Limit Summary Table Below.

In addition, the Project will be restricted by the following jurisdictions as described below:

- The Glendale Housing Authority will restrict 34 units at or below 30% of AMI, 48 units at or below 40% of AMI, and 255 units at or below 80% of AMI for a term of 55 years (refer to below chart for further breakdown of the AMI and unit mix). Housing Authority requires 14 of the 34 units at 30% AMI be restricted by the Housing Community Development Extremely Low Income (HCD ELI) rent and income limits vs. the TCAC rent and income limits.

Pursuant to the USRM, CalHFA regulated unit sizes (by bedroom count) shall be distributed substantially on a pro rata basis across income ranges proportionate to their availability in the development as a whole. Deviations may be allowed based on demonstrable market data and community needs as evidenced in approved Housing Elements. The Borrower is requesting a waiver to meet the pro rata distribution of income ranges and bedroom sizes requirement. This is allowable given the strong market demand as evidenced by the appraisal report (capture rate ranges from 1% to 7% and absorption rate is 10 months) and the City's involvement in determining the proposed income and unit requirement distribution for the proposed project.

**FINANCIAL ANALYSIS SUMMARY**

<b>14. Capitalized Reserves:</b>			
<b>Replacement Reserves (RR):</b>	N/A		
<b>Operating Expense Reserve (OER):</b>	\$1,155,693* OER amount is sized based on 3 months of operating expenses, first lien debt service, and annual replacement reserves deposits. CalHFA will hold this reserve for the term of the CalHFA permanent loan and in the event the OER is drawn down during the term of the loan, the OER must be replenished over a 12-month period to the original level.  *A minimum of 3 to 6 months operating expense, reserves, and debt service ("OER") is required to be held for the life of the CalHFA permanent loan. The OER may be based on 3 months of total operating expense, reserves, and debt service if the developer provides evidence that, within the last 2 years, that they have received allocations from TCAC or provide a certification from a third-party accountant that they met TCAC's general partner and management experience pursuant to CTCAC regulations. The developer has submitted supporting documentation that they've met this requirement.

<b>16. Loan Security</b>			
The CalHFA loan(s) will be secured against the Fee Interest in the improvements and Leasehold Interest in the land.			
<b>17. Balloon Exit Analysis</b>	<b>Applicable:</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No		
The exit analysis assumes 2% increase to the appraisal cap rate (resulting in 6.0%) and a 3% increase of the underwriting interest rate at loan maturity (resulting in 9.23%). Based on these assumptions, the Project will have the ability to fully			

repay the balance of Agency’s permanent first lien loan and the full balance of the Supplemental MIP loan in the estimated amount of \$7,251,732. The project will only be able to repay a portion of the original MIP loan in the estimated amount of \$8,306,056 leaving an outstanding balance of \$893,944 (principal and accrued interest). This is expected by CalHFA given the requirement that the MIP loan be co-terminus with the permanent first mortgage. The primary source of repayment for both the first mortgage and the MIP subsidy loan is refinance of the project’s first mortgage. To the extent such a refinance is insufficient to fully repay the Supplemental MIP and original MIP loans, it is contemplated that any remaining balance will be paid from a general partner contribution as part of the final close out of partnership obligations to allow re-syndication.

**APPRAISAL AND MARKET ANALYSIS**

<b>18.</b>	<b>Appraisal Review</b>	<b>Dated: June 19, 2022</b>
<ul style="list-style-type: none"> <li>• The Appraisal dated 06/19/22, prepared by Cressner and Associates, Inc., values the land at \$16,200,000.</li> <li>• The cap rate of 4.00% and a projected \$2.46 million of net operating income was used to determine the as-restricted stabilized value. The appraisal report’s NOI is approximately \$60,000 higher than the project’s proposed NOI projections. The difference is attributed to the Appraiser utilizing a lower vacancy rate of 2% as opposed to the 5% vacancy rate used for CalHFA and Developer underwriting. Based on the developer’s explanation and supporting documents, staff has determined that the proposed operating expenses are reasonable.</li> <li>• The as-restricted stabilized value is \$61,510,000 which results in the Agency’s permanent first lien loan to value (LTV) of 50%. The combined LTV, including MIP subsidy loan is 67%.</li> <li>• The capture rate ranges from 1% to 7% and absorption rate is 10 months. Both rates are generally consistent with the market study.</li> <li>• Appraisal analysis of senior units is based on a minimum age of 62 years, which is consistent with the proposed age restriction requirement for this Project.</li> </ul>		
	<b>Market Study:</b> Novogradac	<b>Dated: August 24, 2021</b>
	<p><b><u>Regional Market Overview</u></b></p> <ul style="list-style-type: none"> <li>• The Primary Market Area is the city of Glendale and a portion of the City of Burbank (population of 184,011) and the Secondary Market Area (“SMA”) is Los Angeles-Long Beach-Anaheim MSA (population of 13,400,324)</li> <li>• The general population in the PMA is anticipated to increase by 0.4% per year and the senior population will increase by 2.1% per year.</li> <li>• Unemployment in the SMA was 9.5%. The SMA appears to be recovering from the economic effects of the ongoing COVID-19 pandemic indicated by increasing employment levels. Per the appraisal, the unemployment rate was 6.4% in June 2022 for Los Angeles County and is expected to drop to 5.1% in 2023 while the unemployment rate in the City of Glendale was 4.5%. This suggests that the area will return to a more normal level when the project is in lease-up.</li> <li>• Median home value in the zip code is \$735,222.</li> <li>• Market Study analysis of the senior units is based on a minimum age of 55 years.</li> </ul>

California Housing Finance Agency

# MIXED-INCOME LOAN PROGRAM (2022)

The California Housing Finance Agency ("CalHFA" or "Agency") Mixed-Income Program ("MIP") provides competitive, long-term, subordinate financing for new construction multifamily housing projects restricting units (tax credit or CalHFA) between 30% and 120% of county Area Median Income ("AMI").

The MIP must be paired with CalHFA's Conduit Bond Issuance Program and a CalHFA Mixed-Income Qualified Construction Lender (defined below). Additionally, the program must be paired with CalHFA's Permanent Loan product. The MIP resources will take the form of a subordinate loan to incentivize newly developed multifamily housing projects that serve a range of extremely low to moderate income renters. Eligible projects must create newly constructed regulated units that meet the income and occupancy requirements reflected below.

## Qualifications

### APPLICATION:

Sponsors/developers must submit a complete application package which includes all items listed on the application, the application addendum and the checklist. Incomplete application packages will not be considered. The application and checklist can be found at [www.calhfa.ca.gov/multifamily/mixedincome/index.htm](http://www.calhfa.ca.gov/multifamily/mixedincome/index.htm). If the sponsor/developer is not able to meet the readiness timeline referenced below, MIP funds may be rescinded and reallocated.

### AVAILABILITY:

Available to for-profit, nonprofit, and public agency sponsors. Development teams must meet CalHFA experience requirements, as defined in the CalHFA Development Team Qualifications section below.

### USES:

MIP subsidy loans must be used in conjunction with CalHFA's Conduit Bond Issuance Program and a construction loan from a CalHFA Mixed-Income Qualified Construction Lender. MIP subsidy loans must also be used in conjunction with CalHFA's permanent first-lien mortgage financing. CalHFA Mixed-Income Qualified Construction Lender is defined in that section below.

### FINANCING STRUCTURE:

**Projects accessing the MIP subsidy loan funds must be structured as one of the following:**

1. Tax-exempt bond and 4% tax credit project where at least 51% of the units in the project must be tax-credit-financed

OR

2. Qualified mixed-income project through income averaging pursuant to Internal Revenue Code Section 42 (g)(1)(C).

## Qualifications (continued)

### READINESS:

Projects must have site control and be prepared to submit for a bond and tax credit allocation and will only receive funds if bonds are issued within the issuance timeframes specified in the California Debt Limit Allocation Committee's (CDLAC) Regulations Section 5100.

1. **Site:** The site must be ready for construction (all potential environmental issues have been identified, mitigation plan is in place, and costs associated with the mitigation plan have been incorporated in the development budget). Environmental issues may include, but not be limited to, receipt of clearances for CEQA, NEPA, and applicable tribal land environmental reviews. Pursuant to HUD-Risk Sharing requirements, sponsor is expected to start the NEPA process shortly after CalHFA verifies application completeness and determines that the project is ready to move forward with an initial commitment ("notification date"). The NEPA clearance and HUD's firm approval letter will be required prior to construction loan closing.
2. **General Contractor and/or Third Party Construction Services Engagement:** At the time of application, applicant must provide evidence that the applicant or developer has engaged a general contractor or third-party construction services company to provide construction services including, but not limited to, value engineering, bid/budget services, and constructability review of plans and designs. In addition, the proposed construction budget is based on the general contractor's or third-party construction services company's preliminary bid estimates pursuant to the current plans and designs.
3. **Disposition and Development Agreement:** Applicant must provide a copy of the disposition and development agreement, if applicable.
4. **Construction Start:** All projects must commit to begin construction 180 days from the earlier of the date of the tax-exempt bond allocation or 4% federal/state tax credit reservation, unless an extension has been approved by California Tax Credit Allocation Committee (CTCAC), CDLAC, and CalHFA, as applicable. Within the 180-day period, the following items must be submitted to CalHFA in their final form:
  - a. A complete, updated application form along with a detailed explanation of any changes from the initial application,
  - b. An executed construction contract,
  - c. Recorded deeds of trust for all construction financing (unless a project's location on tribal trust land precludes this),
  - d. Binding commitments for any other financing required to complete project construction,
  - e. Copy of a limited partnership agreement executed by the general partner/sponsor and the investor limited partner/equity provider,
  - f. Payment of all construction lender fees,
  - g. Copies of buildings permits (a grading permit does not suffice to meet this requirement, except if the city or county as a rule does not issue building permits prior to the completion of grading, then a grading permit shall suffice; if the project is a design build project in which the city or county does not issue building permits until designs are fully complete, the city or county shall have approved construction to begin) or the applicable tribal documents,
  - h. Copy of the notice to proceed delivered to the contractor,
  - i. If no construction lender is involved, evidence must be submitted within 180 days, as applicable, that the equity partner has been admitted to the ownership entity, and that an initial disbursement of funds has occurred,
  - j. Other documentation and information required by CalHFA to close construction financing.

# MIXED-INCOME LOAN PROGRAM (2022)

## Qualifications (continued)

### MIP ALLOCATION LIMITS: (Exceptions may be considered by Agency in its sole discretion)

1. **Project Cap:** No project may receive more than the lesser of \$8 million, or the aggregate MIP loan amount calculated based on up to \$50,000 per MIP regulated units or up to \$60,000 per MIP regulated units for a Project located within the Highest or High Resource areas pursuant to CTCAC regulations designated on the CTCAC/HCD (California Department of Housing and Community Department) Opportunity Area Map.
2. **Sponsor Cap:** No sponsor (any individual, entity, affiliate and related entity) may receive more than 20% of total MIP allocation or funding of two projects, whichever is less, for the respective year.
3. **County Cap:** No one county may receive more than 25% of total MIP allocations for the respective year.
4. **Age-Restricted Cap:** No more than 25% of total MIP funds for the respective year may be received by age-restricted projects (units that are restricted to residents who are 62 years of age or older under the applicable provisions of California Civil Code Section 51.3 and the federal Fair Housing Act), unless a waiver of the minimum age requirement has been granted by U.S. Department of Housing and Urban Development (“HUD”).

### EVIDENCE OF COST CONTAINMENT:

A Cost Containment Certification must be provided at the time of Construction Loan Closing in a form acceptable to CalHFA in its sole discretion. The certification acceptable to CalHFA may be found at [www.calhfa.ca.gov/multifamily/mixedincome/forms/closing-cost-containment-certification.pdf](http://www.calhfa.ca.gov/multifamily/mixedincome/forms/closing-cost-containment-certification.pdf).

The developer/sponsor must certify that cost containment measures have been implemented to minimize construction costs. These measures should include, but may not be limited to, 1) competitively bidding out all major subcontractor and self-performing trades and 2) engaging a value engineer/consultant during the design process.

### EVIDENCE OF SUBSIDY EFFICIENCY:

A Subsidy Efficiency Analysis will be completed as part of the application review. The analysis will be completed again prior to construction loan closing and closing of the MIP subordinate loan. The MIP loan amount may be reduced based on the final analysis. Parameters of the analysis may include, but are not limited to, the following:

- A maximum of 1.20 Debt Service Coverage Ratio (“DSCR”) at year 1 (“Initial DSCR”). CalHFA may allow an initial DSCR higher than 1.20 on a case-by-case basis, if deemed necessary. The year 1 DSCR underwritten at the time of final loan approval and final commitment must be maintained through the term of the CalHFA permanent first lien loan,
- A project cash flow that supports the residential component of the project based on the required CalHFA permanent first lien annual debt service coverage ratio,
- A separate project cash flow that supports any commercial component of a mixed-use project,
- A cash flow after debt service shall be limited to the higher of 25% of the anticipated annual must pay debt service payment or 8% of gross income, during each of the first three years of project operation,
- Inflation factors and vacancy rates consistent with the Agency’s Underwriting Standards,
- Developer Fee requirements matching those required under the 4% federal and/or state tax credit reservation,
- Capitalized reserves subject to approval by Agency for reasonableness consistent with the Agency’s Underwriting Standards and the Investor Limited Partnership Agreement (ILPA),

## TAX-EXEMPT PERMANENT LOAN PROGRAM

CalHFA's Tax-Exempt Permanent Loan Program ("Perm Loan") provides competitive tax-exempt long-term financing for affordable multifamily rental housing Projects. Eligible projects include newly constructed or acquisition/rehabilitation developments that provide affordable housing opportunities for individuals, families, seniors, veterans, and special needs tenants ("Project").

<b>Qualifications</b>	<ul style="list-style-type: none"><li>• Available to for-profit, non-profit, and public agency sponsors.</li><li>• Tax-exempt bond authority must be obtained from the California Debt Limit Allocation Committee (CDLAC) or through a 501(c)(3) exemption.</li><li>• The Tax-Exempt Permanent Loan may be used with or without 4% low income housing tax credits.</li><li>• If a lender other than CalHFA is providing short-term, first-lien debt, CalHFA shall be used as the bond issuer (for more information, review the Conduit Issuer Program Term Sheet).</li><li>• For Section 8 Projects, a final commitment is conditioned upon review and acceptance by CalHFA of the HAP or AHAP contract.</li><li>• The Perm Loan will be credit-enhanced through CalHFA's HUD/FHA Risk Sharing Program.</li><li>• For existing CalHFA portfolio loans, the current owner is required to pay off all outstanding CalHFA debt. Visit <a href="http://www.calhfa.ca.gov">www.calhfa.ca.gov</a> for the <a href="#">CalHFA Portfolio Loan Prepayment Policy</a>.</li></ul>
<b>Loan Amount</b>	<ul style="list-style-type: none"><li>• Minimum Perm Loan amount of \$5,000,000.</li><li>• Minimum 1.15x for initial debt service coverage ratio (include any financing with amortizing debt). If a Project includes CalHFA's subsidy loan, the maximum DSCR at year 1 shall not exceed 1.20, unless CalHFA approves a higher DSCR at its own discretion. The year 1 DSCR underwritten at the time of final loan approval and final commitment must be maintained as the minimum DSCR through the term of the Perm Loan. CalHFA may require the initial DSCR to be higher than the minimum 1.15x, if deemed necessary to meet the Agency's underwriting requirements.</li><li>• Lesser of 90% of restricted value or 100% of development costs. For Projects with equity being cashed out, the Perm Loan amount will be restricted to no more than 80% of the restricted value.</li></ul>
<b>Fees</b> (subject to change)	<ul style="list-style-type: none"><li>• Application Fee: \$10,000 non-refundable, due at time of application submittal, and is credited toward the CalHFA Legal Fee at Perm Loan closing. The applicant may be subject to a new Application Fee if the CalHFA commitment expires prior to construction loan closing.</li><li>• Perm Loan Fee: 1.00%, half due at final commitment, with balance due at Perm Loan closing.</li><li>• Credit Enhancement Fee: included in the interest rate.</li><li>• Annual Monitoring Fee: \$7,500 annually (not to be duplicated if used in conjunction with CalHFA's Conduit Program).</li><li>• Inspection fees should be estimated at \$500 per month for the term of the construction (reports and fees can be shared with other construction lenders)</li><li>• Legal Fee: \$35,000, half due at final commitment, with balance due at Perm Loan closing.</li><li>• Perm Loan Funding Fee: \$110,000 at Perm Loan closing.</li><li>• Administrative Fee: \$1,000 at Perm Loan closing.</li><li>• Letter of Interest Fee: \$5,000 at LOI request, and is credited toward the CalHFA Perm Loan Fee</li></ul> <p>See CalHFA standard <a href="#">Conduit Issuer Program Term Sheet</a> for information on conduit issuance fees.</p>

# CONDUIT ISSUER PROGRAM

## MULTIFAMILY HOUSING BONDS

Term sheet effective for applications submitted after March 1, 2022

The CalHFA Conduit Issuer Program is designed to facilitate access to tax-exempt and taxable bonds ("Bond") by developers that seek financing for eligible projects that provide affordable multifamily rental housing for individuals, families, seniors, veterans or special needs tenants ("Project"). The conduit Bonds may be used to finance the acquisition, rehabilitation, and/or development of an existing Project, or they can be used for the construction of a new Project.

<b>Qualifications</b>	<ul style="list-style-type: none"> <li>Available to for-profit, nonprofit or public agency sponsors.</li> <li>Nonprofit borrowers may be eligible for 501(c)(3) bonds.</li> <li>If bond proceeds are utilized to pay off an existing CalHFA portfolio loan visit <a href="http://www.calhfa.ca.gov">www.calhfa.ca.gov</a> for the <a href="#">CalHFA Portfolio Loan Prepayment Policy</a>.</li> </ul>
<b>Bond Amount</b>	Bond amount is determined by the loan amount of the selected construction lender.
<b>Fees</b> (subject to change)	<ul style="list-style-type: none"> <li>Application Fee: \$5,000 non-refundable, due at time of application submittal (covers the cost of the TEFRA required for tax-exempt issuances) and is credited toward the CalHFA Issuer Fee.</li> <li>Issuer Fee:             <ol style="list-style-type: none"> <li>The greater of \$15,000 or 18.75 basis points of the Bond amount if lesser than or equal to \$20 million.</li> <li>If more than \$20 million: \$37,500 + 5 basis points for the amount above \$20 million.</li> </ol> </li> <li>Annual Administrative Fee: 5 bps of the tax-exempt bond issuance amount due at construction loan closing and due annually thereafter until permanent loan conversion. After permanent loan conversion, billed annually in advance, 5 bps of unpaid principal balance amount of tax-exempt bond financed loan(s) until bonds are fully redeemed. Minimum Annual Administrative Fee shall be \$4,000 through both the Qualified Project Period and the CDLAC compliance period.  For taxable only issuances, annual administrative fees above will be charged based on the taxable bond financed loan(s) for the term of the CalHFA affordability restrictions.  If used in conjunction with a CalHFA permanent loan product, the annual administrative fee will not be duplicated. Please refer to the applicable permanent loan term sheet for the annual administrative fee.</li> <li>Public Sale: Additional fee of \$5,000 to \$10,000 applies when Bonds are sold to the public.</li> <li>CDLAC Allocation Fee: 0.035% of the Bond amount, \$1,200 of which is due at time of CDLAC application submittal with the remaining fee due at construction loan closing and payable to CDLAC.</li> <li>CDLAC Performance Deposit: 0.50% of the requested Bond amount, not to exceed \$100,000, due at time of CDLAC application submittal. Deposit to be refunded after the Bond closing, upon receipt of authorization letter from CDLAC.</li> </ul> <p>The Borrower shall be responsible for all other costs of Bond issuance including fees of the underwriter, trustee, rating agencies, lender, compliance administrator, all Bond counsel legal fees, and any other parties required to complete the transaction.</p>

## CONDUIT ISSUER PROGRAM

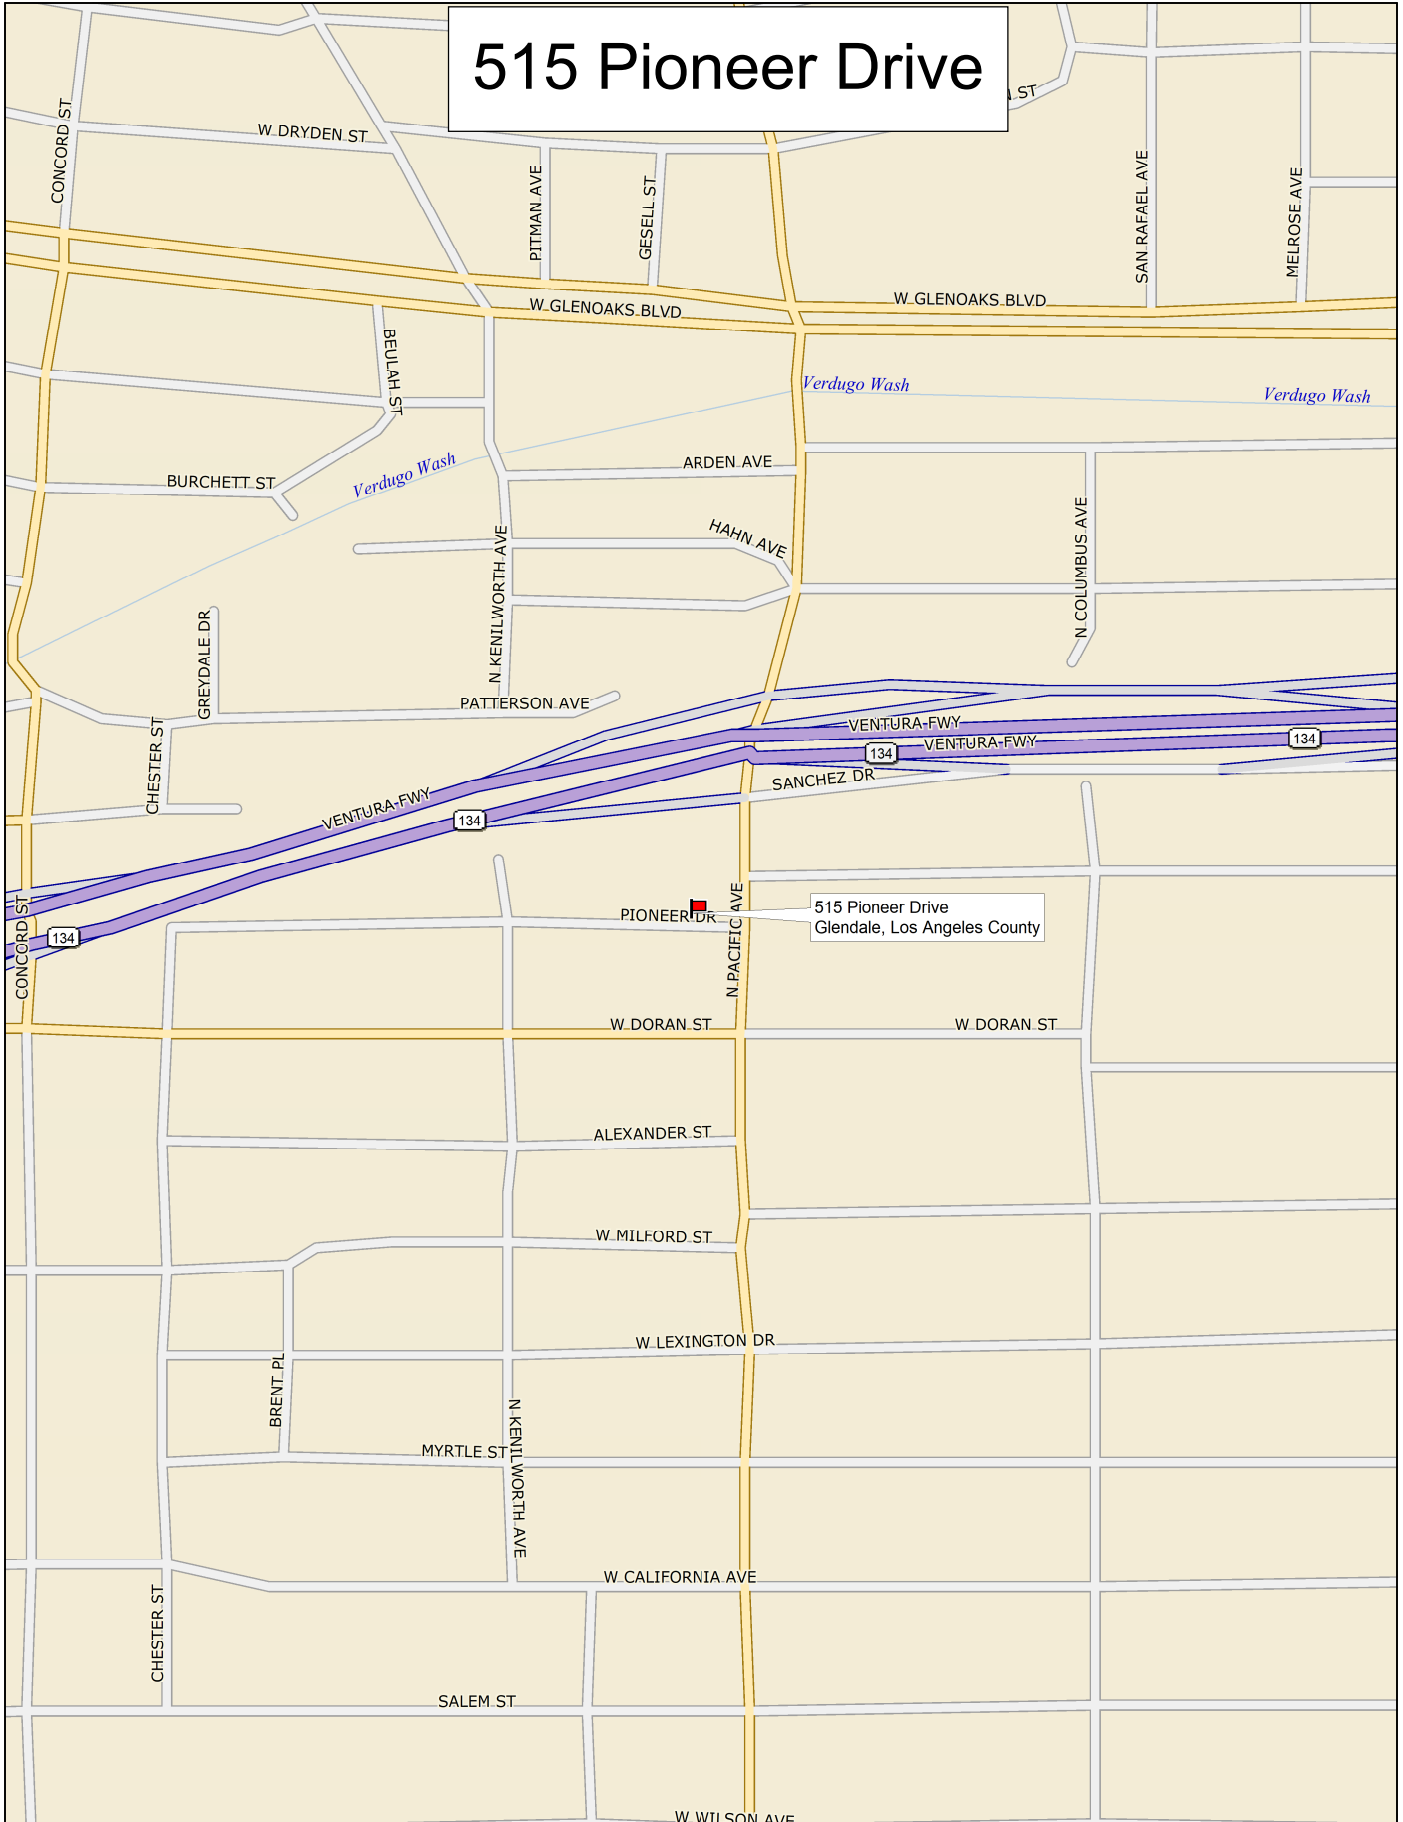

### Occupancy Requirements

- Either (A) 20% of the units must be rent restricted and occupied by individuals whose incomes are 50% or less of the area median income as determined by HUD ("AMI") with adjustments for household size ("20% @ 50% AMI"), or (B) 40% or more of the units must be rent restricted and occupied by individuals whose income is 60% or less of AMI, with adjustments for household size ("40% @ 60% AMI"); however in the latter case, a minimum of 10% of the units must be at 50% or less of AMI.
- Any units restricted by the Agency pursuant to this program, including those units restricted in addition to the minimum requirements set forth above, shall be rented at rents up to 30% of the applicable income restriction using the occupancy assumptions required in the Agency's Regulatory Agreement. Rents for all restricted units must be at least 10% below market rents as evidenced by a current market study or an appraisal.
- Borrower will be required to enter into a Regulatory Agreement which will be recorded against the Project for the Qualified Project Period (as defined in the CalHFA Regulatory Agreement). This includes the later of the federally-required qualified project period, repayment of the Bond funded loan, redemption of the Bonds, the full term of the CDLAC Resolution requirements or 55 years.
